

Som Pande

AI Engineer | Generative AI & RAG Specialist | Backend Architect

Email: sompande10@gmail.com | Phone: +8527927199

<https://www.linkedin.com/in/sompande10/>

AI Match Score: 15.0%

EXECUTIVE SUMMARY

Som Pande is a highly proficient AI Engineer with a proven track record of delivering high-impact automation and Generative AI solutions within enterprise environments at KPMG. He specializes in building scalable RAG frameworks, automating complex workflows to eliminate licensing costs, and optimizing API performance for real-time applications. With a strong foundation in backend development (FastAPI) and cloud platforms (Azure, GCP), he bridges the gap between sophisticated data engineering and production-ready AI products to drive significant business ROI.

AI EVALUATION VERDICT

REJECT

While Som Pande is a highly skilled AI Engineer with impressive technical accomplishments, he lacks the fundamental hospitality and coffee preparation experience essential for this cafe-based role. His specialized background in backend architecture does not align with the operational requirements of the position, as reflected in the low 15% match score.

STRATEGIC ALIGNMENT MATRIX

[NOT MET] Coffee Recipe & Brewing Excellence

Qualification: No relevant evidence found in the provided document; background is strictly technical engineering.

[NOT MET] Guest Engagement & Customer Service

Qualification: Experience is limited to enterprise internal stakeholders (KPMG) and technical teams, not retail consumers.

[MET] Tech Integration (AI Systems)

Qualification: Extensive expertise in building Generative AI, RAG frameworks, and FastAPI backends; capable of managing the 'proprietary AI systems' mentioned.

[NOT MET] Latte Art & Presentation

Qualification: No relevant evidence found in the provided document.

[PARTIAL] Growth Mindset (AI + F&B)

Qualification: Demonstrates a strong growth mindset in AI/Automation, but no documented interest or experience in Food & Beverage.

CORE COMPETENCY METRICS

Generative AI	5.0/5.0
Agentic AI	5.0/5.0

PROFESSIONAL EXPERIENCE TIMELINE

AI Engineer @ Lighthouse, KPMG India

Jan'24 - Present

Migrated 150+ workflows from Alteryx to a custom Python/OpenAI-based platform, reducing client licensing costs to zero. Engineered a scalable pipeline to extract and preprocess millions of social media data points for enhanced sentiment analysis. Designed modular backend APIs using FastAPI and Pytest, achieving 90% test coverage for mission-critical reliability.

Lighthouse Intern @ Lighthouse, KPMG India

Feb'23 - Aug'23

Developed an AI-powered Resume Scanner that reduced recruitment screening time by over 60% through automated scoring. Built a secure metadata management application using Flask and Azure, implementing SSO and restricted access for enterprise users.

KEY PROJECTS & INNOVATION PORTFOLIO

Modular AI RAG Framework for Multi-Platform Assistants

Tech: FastAPI, OpenAI APIs, Qdrant, WhatsApp API

Designed a plug-and-play RAG framework achieving 92% response relevance and sub-1.2s latency. This project demonstrates high-level proficiency in vector search, context-aware embeddings, and deploying high-performance APIs for cross-platform integration.

Alteryx To Python Automation Engine

Tech: Python, OpenAI, Knowledge Graphs, Snowflake

Built a scalable alternative to legacy ETL tools, using graph-driven logic to optimize API usage and cut OpenAI costs by 40%. It showcases the ability to modernize complex legacy workflows into cloud-native Python environments.

Automated Email Response System

Tech: Gmail API, Google Pub/Sub, FastAPI, LLMs

Created an intelligent mailing module that triggers real-time, context-aware responses using event-driven architecture. This highlights expertise in asynchronous processing and integrating third-party APIs for autonomous business communication.

Supply-Chain Platform Backend APIs

Designed modular backend APIs with 90% test coverage for reliability. This technical foundation ensures he can contribute to the cafe's goal of constant innovation and help troubleshoot or suggest improvements for the 'next-gen AI' cafe environment.

ACADEMIC & PROFESSIONAL CREDENTIALS

Education:

B.Tech: Computer Science Engineering - Shiv Nadar Institute of Eminence (2019 - 2023)

Certifications:

Microsoft Certified: Azure AI Engineer Associate, KPMG Super Team Award '25
