

HRX AI EVALUATION REPORT

Candidate: Som Pande

Final Verdict: ACCEPT

Som Pande demonstrates a high technical alignment with a 92% match score, showcasing specialized expertise in Generative AI, RAG frameworks, and Agentic AI. Despite the inconclusive social search findings, his professional experience at KPMG and comprehensive modern tech stack make him an exceptional candidate for an AI Engineering role. His background in building scalable automation platforms directly addresses critical efficiency and operational cost-reduction needs.
